

# Samuel Chiang

Spiritual learning: I learned a lot from God this missions trip. God told me to act more selfless just like the dorm students at CCEC. Those kids are as pure and care so much about everyone. I believe that God wants me to act like them. I also need to watch what comes out of my mouth. My mouth should be used to raise people up and not for anything else. Finally God has reminded me to He is always in control no matter what. He was with me when I was fundraising and He was with us the entire missions trip. God has been very good to me allowing me to go. I am glad he got to use me and I will never forget this experience.
